

## Concierge Podiatry

Concierge Podiatry basically means a fee for service that does not require billing to a third party (insurance) for payment. Because there is no need for processing a medical input form patients in the greater Melbourne/Palm Bay/Cocoa/Titusville areas can be seen sooner.

If your health insurance is anything other than Medicare Part "B" this would be your best option.

For 2022, this fee is \$125.00 for the initial visit and 30-minutes of face-to-face time with the client, \$50 per fifteen-minute increments thereafter. This includes the active time of trimming toenails and light corns and calluses. Dr. Simmons does not use any power equipment such as grinding tools. All work is performed with autoclaved (steam sterilized) manual instruments: nippers, rasps and files.

For 2022, the fee is \$80.00 for subsequent visits and 20-minutes of face-to-face time with the client, \$50 per fifteen-minute increments thereafter.

This service is for the trimming of toenails, corns, and calluses as well as the debridement of thickened toenails probably caused by a fungus infection. This service is not for obvious bacterial infections, such as infected, draining ingrown toenails, ulcers or any condition that requires penetration into skin. It is extremely rare that an initial visit would take longer than 30-minutes or a subsequent visit to take longer than 20-minutes.
